Email

Read and send email messages right from your phone.

Adding your email account

We're assuming that you have set up Windows Live when you first set up your phone. If not, follow this procedure to set up Windows Live and your other email accounts.

1. On the Start screen, tap
2. Tap **Settings > email & accounts > add an account**.
3. Select the account you want to set up.
4. Enter the email address and password, and then tap **sign in**.

Sending an email message

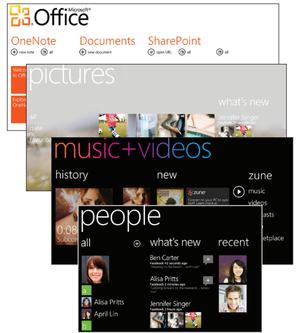
1. On the Start screen, tap the email account you want to use to send the email.
2. On the email account inbox, tap .
3. Enter the recipients.

   To add Cc or Bcc recipients, tap ... **> show Cc/Bcc**.

4. Enter the subject. Then tap the space below the subject line to compose your message.
5. Tap to add an attachment. You can only attach a photo.
6. Tap to send the message.

About hubs

Simplify your everyday tasks with hubs. Instead of going in and out of various apps, hubs simplify things by tying together related experiences. For example, in the People Hub, not only can you see all your contacts but you can also check status updates from your Facebook friends. Check out the other cool hubs on your phone such as Office, Pictures, Music + Videos, and more.



HTC Hub

Get more out of your phone with apps from us. Check out the HTC Hub and see what we have in store for you. The built-in Weather app shows the weather in rich 3D animation for your location or in cities that you select, and provides a forecast for coming days. Apps ranging from fun games to management tools are just a tap away.

These are some of the cool apps that the HTC Hub offers. Some may already be on your phone. If not, don't worry, you can use the HTC Hub to download the other HTC apps.

Photo Enhancer

Photos need a bit of touch-up? Use one of the available photo enhancements to touch up your photos.

Notes

Note to self – pick up flowers for wife before going to dinner. Use Notes to tack short reminders to yourself.

Stocks

Get updates for the stocks you are following.

Love

He loves me, he loves me not, he loves me!!! See whether that special someone is feeling the same way as you are.

Flashlight

Use your phone's flash at the back of your phone as a flashlight.

Calculator

Hold the phone upright and you get a basic calculator. Turn your phone to the side and you get a scientific calculator.

Converter

How many pounds are there in a kilo again? Use Converter to convert weight, length, volume, and even currency.

Lists

Forgot to buy the toothpaste again? Make sure you don't forget next time by using List to jot down the things you need to get from the grocery.

Sound Enhancer

Get that surround sound feeling when you're watching videos or listening to music.

Connection Setup

Set up your phone's data connection based on your SIM card or a mobile operator.

Lock your screen

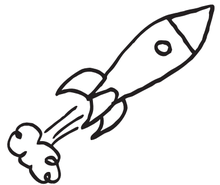
Don't you just hate pocket dialing? Before putting your phone in your pocket or bag, lock the screen first so you avoid those accidental screen presses.

To lock the screen, just press the POWER button.

Unlocking the screen

You can unlock the screen by pressing the POWER button to turn on the display, and then sliding the screen up starting from the bottom of the screen.

Your **HTC** 7 Pro Quick guide



For the complete user guide and other helpful resources, go to www.htc.com/support. Please also read the Safety and regulatory guide that's included in the box.

For additional information about your phone, go to windowsphone.com.

Note: Certain Microsoft services/features may not be available in your country or region.

Before you do anything else, please read this

Charge the battery

The battery in your phone hasn't been charged yet. While your phone is charging, it's important that you do not remove the battery pack. Doing so can damage your phone. Also, please don't try to take your phone apart. (If you do, it may invalidate your warranty.)

Choose a rate plan wisely

Your phone can use up a lot of Internet bandwidth really quickly. Before you use your phone, we strongly recommend that you talk to your mobile operator about data rates.

Know about privacy laws

Some countries have strict laws about how and when you can record phone conversations. It's a good idea to find out what the laws are where you live before you use your phone's recording feature.

And finally, a few important words from our legal team (LIMITATION OF DAMAGES)

To the maximum extent permitted by applicable law, in no event shall HTC or its affiliates be liable to you, any user, or third party for any indirect, special, consequential, incidental or punitive damages of any kind, arising in contract, tort, or otherwise, including, but not limited to, injury, loss of revenue, loss of goodwill, loss of business opportunity, loss of data, and/or loss of profits, regardless of the foreseeability thereof or whether HTC or its affiliates have been advised of the possibility of such damages. And in no event shall the total liability of HTC or its affiliates exceed the amount received from you, regardless of the legal theory under which the cause of action is brought. The foregoing does not affect any statutory rights which may not be disclaimed.

Get to know your phone

Before you turn on your phone

Get everything in order before you press the POWER button.

Removing the back cover

1. Holding your phone securely with the front facing down, slide the back of the phone to the right.

2. With your thumb or finger, lift up the back cover from the small notch at the side of the phone.

Inserting your SIM card

1. Insert the SIM card with its gold contacts facing down and its cut-off corner facing out.
2. Push the SIM card all the way in.

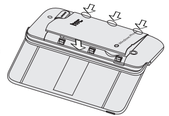
Installing the battery

Line up the battery's copper contacts with the connectors inside the battery slot. Then, gently push the battery into place.

Replacing the back cover

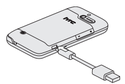
1. Secure the right side of the back cover first by aligning the tabs on the back cover into the openings located inside the battery compartment.
2. Press the left side of the back cover down to lock the cover into place.

   You will hear a click when the back cover is locked in place. (You may find it easier if you slide the keyboard back into place first.)



Charging the battery

Use the supplied power adapter and USB cable to charge your phone.



Set up your phone

When you switch on your phone for the first time, you'll be asked to set some options such as your time zone and your Windows Live ID. Just follow the onscreen instructions and you'll be up and running in no time.

Start screen

This is where it all starts. The Start screen contains Windows® Phone live tiles that are associated with apps on your phone. Scroll up or down to see the other tiles. Tap a tile to access the app associated with it.

Check out the Start here guide that's included in the box for more details about the Start screen and the fun things you can do with it.

Keep in contact

Bring in your contacts and add new ones to your phone.

Importing all contacts from your SIM card

1. On the Start screen, tap the People tile.

2. In **all** of the People hub, tap **import SIM contacts**.

   If you have an account already set up, press and hold **people** on top of the screen, and then tap **settings**.
3. Choose how you want to sort and display the contacts, and then tap **import sim contacts**.

Adding a new contact

1. On the Start screen, tap the People tile.
2. In **all** of the People hub, tap +.
3. Enter information by tapping an item.
4. Tap ✓ to save the contact.

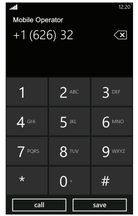
Facebook

Want to stay on top of your friends' updates on Facebook? Sync with Facebook to see all your friends and get their latest updates right inside the People hub. Check out the Start here guide that's included in the box for details.

Make your first call

1. On the Start screen, tap the Phone tile.

2. Tap ⌨.
3. Dial the number you want to call.
4. Tap **call**.



Send a txt msg

1. On the Start screen, tap the Messaging tile.

2. On the conversations screen, tap +.
3. Enter the recipient name.
4. Tap type a message.
5. Enter your message.
6. Tap ✉ to send the message.

Connect to the Internet

Get online using your phone's data connection or Wi-Fi.

Using data connection

Your phone will be automatically set up to use your mobile operator's data connection when you turn on your phone (if the SIM card is inserted) for the first time.

If it's not set up, you can go to **Settings > cellular** or use **Connection Setup** in the apps list to set up your phone's data connection.

Using Wi-Fi

1. On the Start screen, tap ⚙.
2. Tap **Settings > Wi-Fi**.
3. Tap the Wi-Fi networking On/Off switch to turn it on.
4. Tap the Wi-Fi network you want to connect to.
5. If you selected a network that is secured with WEP, enter the key, and then tap **done**.

Browsing the Web

On the Start screen, tap the Internet Explorer tile to start surfing the Web. Use finger gestures to browse the webpage or to zoom in or out. Turn your phone to the side to view the web page in full screen.
